AEO · Answer Engine Optimisation

CAN PERPLEXITY, CHATGPT, CLAUDE ANSWER MEN'S-RECOVERY QUESTIONS USING YOUR CONTENT?

13 FAQ pairs on /heal-your-heartbreak — but no FAQPage schema

Fix: Wrap the 13 existing Q&As in FAQPage JSON-LD. This is the single highest-leverage change on the site.

Homepage "Common Questions" section unmarked-up

Fix: Add FAQPage schema to homepage + repeat across 5 top programmatic pages.

Blog posts use long-form narrative, not scannable Q-answer pattern

Fix: Restructure 10 top blog posts with H2 questions and 1-sentence direct answers before the depth.

No "definitional" answer block on homepage

Fix: Add a concise "Who is Sunny Binjola? / What is Men's Heartbreak Recovery Coaching?" answer block near top of page.

GEO · Generative Engine Optimisation

DOES "SUNNY BINJOLA" APPEAR AS A RECOGNIZED ENTITY IN THE AI TRAINING GRAPH?

Zero measurable external citations in men's-coaching directories or press

Fix: Submit to Psychology Today, Good Men Project, Noomii, Coach.me, and The Coaching Directory this quarter.

No podcast features indexed under Sunny Binjola name

Fix: Pitch 3 podcasts (Mantalks, Evolving Man, Jamie Coach) — these are the authority hubs AI engines scrape for the niche.

Person entity not cross-linked — no sameAs graph

Fix: Publish Person schema with sameAs LinkedIn, X/Twitter, Instagram, YouTube, Substack, podcast feeds.

No Wikipedia / Wikidata entry — AI engines lack an entity anchor

Fix: Create a Wikidata entry for "Sunny Binjola" with profession = coach, specialty = men's heartbreak recovery, links.

LLMO · LLM Optimisation

CAN LLMS CLEANLY INGEST, UNDERSTAND, AND CITE YOUR SITE?

llms.txt is referenced in sitemap — content ingestion surface present

Maintain: Update llms.txt quarterly with latest program pricing, methodology, and testimonials.

Robots.txt explicitly allows 7 AI crawlers including Applebot-Extended

Maintain: Stable and well-configured — continue. Re-verify 30-day cycles that CDN doesn't block allowlisted bots.

No Course / Program schema on /heal-your-heartbreak or /get-your-ex-back

Fix: Use Course + Product schema so LLMs surface the 60-Day Recovery program when asked "structured men's breakup programs".

Blog posts lack author + publish date + last-modified signals

Fix: Add consistent author byline (Person schema) + datePublished + dateModified to every post. Weak authorship signals = weak LLM trust.

Live AI Query Results

QUERY	SITE APPEARS?	WHAT APPEARED INSTEAD
"men's work coach who uses AI"	NO	The Fully Booked Coach, CareerVillage, Indeed, Valence, Kickresume
"online men's life coaching programs"	NO	BetterMen Coaching, Man-UP! Life Coaching, Josh Dolin, Man Talks, Life Architekture
"men's personal development coach"	NO	better-men.uk, Coaching Magazine, Man-UP! Life Coaching, Practical Intimacy

Score impact: 2/15 — same as last week. Entire AI answer ecosystem for men's coaching is dominated by 3–5 established players. Breaking in requires external citations + Wikidata + 3+ podcast features.
